

**Solicitation for Price Quotes to Identify Sites or Artifacts of Historic Significance
Within Proposed Hazardous Fuel Reduction Project Areas
January 1, 2008 – June 30, 2008**

The Nevada Fire Safe Council (NFSC) is soliciting price quotes to complete the required reviews and surveys to identify the potential or actual presence of historically significant sites or artifacts within proposed hazardous fuel reduction project areas. Proposed projects are located in at-risk communities across the state of Nevada. The deadline for submission of completed price quote forms is December 31, 2007. Quotes will be formulated and submitted on the basis of cost per hour. Forms and additional information can be found on-line at www.nvpsc.org. Completed forms must be delivered no later than 5 PM, PST to P.O. Box 2724, Carson City, NV. Call (775) 884-4455 for clarifications, questions or to obtain forms. Fax and electronic submissions will be accepted.

Scope of Work: Published records and reports will be reviewed to determine the probability that sites or artifacts with historic significance will be found within project areas. On-site, surface examinations will be conducted to determine the actual presence or absence of artifacts or indicators of potential historic site locations. If present, an impact mitigation plan will be developed and submitted. Reports documenting reviews, surveys, analysis, and findings will be submitted in accord with statutory requirements.

All work will be done in a professional manner with due diligence paid to protecting private property and ensuring compliance with State Historic Preservation Office requirements. All expenditures associated with indirect costs and professional time must be included in the price quotes submitted. Reimbursement of travel and report preparation expenditures will be negotiated prior to issuing a purchase order. Routine reviews will be conducted to determine quality of work, production levels, and compliance with reporting requirements.

Work schedules and project completion deadlines will be developed in consultation with and approval of both the participating communities and the Nevada Fire Safe Council. Purchase orders based on the submitted quotes, variable costs, and personnel availability will be issued on a project-by-project basis.

Minimum Contractor Qualifications:

1. Three years experience completing similar work documented by three references with contact information related to previous work completed.
2. Provide license or permit to conduct business in Nevada.
3. Provide all necessary transportation, support personnel, and equipment.
4. Provide certificate of comprehensive general liability insurance with a combined single limit, or the equivalent, of not less than \$500,000 each occurrence for Bodily Injury and/or Property Damage.

Payment for Services: By the fifteenth day of the month contractor shall submit monthly billing invoices to NFSC detailing actual hours of work performed and work locations. NFSC shall be allowed thirty (30) days from the date the invoice is received to pay for the services documented on the invoice. Any disputed charges shall be resolved within 15 days from the receipt of the invoice.
